Machine Learning Algorithms

Duration:

60 Hours

Date of Commencement:

17 October 2022

About The College

Rajagiri College of Management and Applied Sciences is an affiliated college offering undergraduate and post-graduate degrees conferred by Mahatma Gandhi University. The courses are offered in the discipline of Management, Arts and Computer Application. Besides a robust teaching pedagogy, Rajagiri College of Management & Applied Sciences is also a leader in research and innovation.

The institution marked its inception in the year 2005 and is modelled on the dream and vision of Saint Kuriakose Elias Chavara, the Founder of CMI congregation and a social reformer in the 19th Century. Focus is given to activities beyond academics at Rajagiri College of Management & Applied Sciences, which is evident from its infrastructure, extracurricular activities and national & international collaborations.

About The Department

The Department of Computer Science at Rajagiri College of Management and Applied Sciences in Kakkanad, Kerala, is typically dedicated to providing high-quality education and training in various aspects of computer science, information technology, and related fields.

The faculty members of the Department of Computer Science are typically experienced professionals and scholars who play a crucial role in delivering quality education, mentoring students, and guiding them through their academic and professional development.

Course Description

A 60-hour certificate course designed to equip learners with a comprehensive understanding of machine learning algorithms, focusing on practical skills and real-world applications.

Topics Covered

Syllabus:

Module 1: Introduction to Machine Learning (12 hours)

Module 2: Supervised Learning Algorithms (12 hours)

Module 3: Unsupervised Learning Algorithms (12 hours)

Module 4: Advanced Machine Learning Techniques (12 hours)

Module 5: Practical Applications and Projects (12 hours)

Course Outcome

CO1. Foundational Knowledge : Understand the core concepts and techniques of machine learning.

CO2. Algorithm Proficiency: Gain proficiency in implementing various machine learning algorithms using Python.

CO3. Practical Skills: Develop the ability to apply machine learning models to real-world problems.

CO4. Analytical Skills: Learn to evaluate and improve the performance of machine learning models.

CO5. Ethical Awareness: Recognize the ethical implications and responsibilities in the application of machine learning.

The faculty members of the Department of Computer Science are typically experienced professionals and scholars who play a crucial role in delivering quality education, mentoring students, and guiding them through their academic and professional development.

Course Description

The course helps to enhance Python proficiency with an advanced focus on data science techniques. Delve deeper into machine learning, statistical modeling, and big data processing using Python. Master advanced libraries such as Scikit-learn, TensorFlow, and PyTorch for predictive analytics and deep learning applications. Elevate your skill set with real-world projects and case studies, empowering you to tackle complex data challenges with confidence.

Topics Covered

The course covers Python basics, data types, control structures, functions, modules, libraries (NumPy, pandas, Matplotlib), data manipulation, data visualization, statistical analysis, machine learning algorithms, data preprocessing, exploratory data analysis, model evaluation, and project-based applications in data science.

Course Outcome/Objective

- CO 1. Develop a strong foundation in Python programming, covering essential concepts and data structures.
- CO 2. Understand the fundamental libraries for data manipulation, including NumPy and Pandas.
- CO 3. Learn data visualization techniques using Matplotlib and Seaborn.
- CO 4. Gain an introduction to data science core methodologies.
- CO 5. Apply Python skills to basic data science projects and real-world datasets.

Massive Open Online Course in Organic Farming

Duration: 90 Hours

**Date of Commencement:
20 July 2022**

About the College

Rajagiri College of Management and Applied Sciences is an affiliated college offering undergraduate and post-graduate degrees conferred by Mahatma Gandhi University.

The institution marked its inception in the year 2005 and is modelled on the dream and vision of Saint Kuriakose Elias Chavara, the founder of CMI Congregation and a social reformer of 19th century.

Course Description

Massive Open Online Course (MOOC) in Organic Farming is a comprehensive program that intricately guides participants through every vital stage of the farming process. From selecting and planting high-quality seeds to nurturing them with care, fostering a keen sense of observation, implementing natural pest control methods, managing manure effectively, and executing a well-timed and handled harvest, this course delves deep into sustainable and eco-friendly farming practices.

Topics Covered

- Introduction to organic farming
- Crop selection
- Crop rotation
- Pest control
- Sustainable agriculture practices

Course Outcomes

- CO1: Understand the basics of organic farming.
- CO2 : Learn about different crop rotation plans and when to use them
- CO 3 : Discover ways to grow different crops on a resilient and sustainable manner.
