The Future of AI in Education

This book is designed to be an invaluable resource for educators, administrators, policymakers, and students in the transformative power of AI in education. It seeks to provide both a comprehensive overview and practical insights into the evolving landscape of AI-powered education. It reflects on the journey, highlighting key takeaways and inspiring readers to navigate the exciting intersection of technology and learning. In the chapters that follow, we will delve into each aspect of AI in education, exploring the latest developments, challenges, and opportunities that define this transformative journey. Let's embark on this educational odyssey together, as we uncover the potential of AI to reshape the way we teach and learn, and ultimately, to empower the minds of the future.

About the Author

Ms. Anna George has more than eight years of experience at Rajagiri College of Management & Applied Sciences, in teaching undergraduate and postgraduate students. She fosters a positive learning environment by encouraging students to master difficult topics. Her participation in workshops and research seminars equips in problem-solving and analytical skills. She is currently pursuing a Doctorate at the Karpagam Academy of Higher Education in Tamil Nadu.
