Dear Ms.Ambili M S(Member, Board of Studies, Computer Science, MG University),

I hope this email finds you well.

As the next syllabus revision for the Bachelor of Computer Applications (BCA) program approaches, We would like to propose the inclusion of topics related to Artificial Intelligence (AI) in the syllabus. As per the new trend, AI is transforming industries across the globe and we realise that it is our responsibility to equip our students with knowledge in that domain . According to the demands of the job market skills in this area are very much essential for them to flourish more.

Some of the topics we suggest for inclusion are:
Introduction to AI – covering the fundamentals, history, and significance of AI in today's world.
Machine Learning – basic algorithms, supervised and unsupervised learning, and real-world applications.
Natural Language Processing (NLP) – language models, chatbots, sentiment analysis, and text classification.
AI Ethics and Governance – discussing the ethical implications and guidelines for responsible AI development.
AI in Industry – case studies on how AI is revolutionizing different sectors like healthcare, finance, and agriculture.

These topics will not only enhance the technical knowledge of our students but also empower them to build innovative solutions for real-world challenges. We request that these suggestions be considered during the upcoming syllabus revision meeting. We are happy to collaborate further on curriculum development or provide additional information if required.

Thank you for your time and consideration.

Thanks and regards
